## **Policies and procedures**

### **16 – Club Contributions**

In order to carry out one of the Sports Trust's prime responsibilities of operating, maintaining and improving the assets of the Sports Park on behalf of the club members, it is necessary for each of the constituent clubs to make an annual financial contribution towards the Trust. The level of those contributions is:

1. Agreed at the first Trustees Board meeting of each financial year.
2. Minimised as much as possible by allocating as many attributable, direct costs as possible to each of the clubs.
3. Maintained at the lowest reasonable level consistent with the financial viability of the Trust and the need to demonstrate to external funders that individual members of the clubs are contributing to the core facilities that they enjoy.
4. The same for each of the clubs once they have been fully established.
